

Industrial Treatment System

Using Clearflow's ASRT technology, industrial waste treatment has never been easier or more cost effective.

Accelerated **S**olids **R**emoval **T**echnology

Turn your industrial release water into "Clearflow" in hours not days.

Benefits

- Able to clarify 100 cubic meters per day
- System can be interlinked and scaled for volume
- Treats a variety of contaminants
- Environmentally safe discharges
- Able to work with existing infrastructure

MEETS ALL REGULATORY REQUIREMENTS

Variance No. VAR-PS62.11

Developed with support of the National Research Council of Canada and research conducted at the University of Alberta

Contaminants removed:

- Metals
- Light hydrocarbons
- Sewage
- Solids (TSS)
- TDS
- Pathogens
