

Lynx Phosblock

Lynx Phosblock Benefits

- Reduction of algae and cyanobacteria
- Increase water quality
- Increase visibility
- Healthier macrophytes
- Healthier environment for aquatic organisms
- Reduce sediment loading
- Environmentally friendly
- Not harmful to fish and other aquatic organisms or mammals.

Phosphate and phosphorus reduction data using a Lynx Phosblock treatment:

	Site 1	
	Raw	Treated
Phosphate	0.11	<0.05
Orthophosphate	0.04	<0.01
	Site 2	
	Raw	Treated
Phosphate	0.08	<0.05
Orthophosphate	0.01	<0.01
	Site 3	
	Raw	Treated
Phosphate	3.36	<0.05
Orthophosphate	<0.01	<0.01

Best result by using Clearflows Treated Jute™ to capture flocculated materials and prevent the bound phosphates from re-entering the pond.
